REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Greenfield School Board:

The sharp increase is the equalized valuation of the town results in a decrease in state aid. But the financial condition of the school district is excellent, as the Board had foreseen the probability of readjustment of valuation and, without increase in the local tax rate, had accumulated a balance to tide the schools through the period of 1931-1933, on the same level as in 1929-1931.

Fifty-eight different pupils were registered in the past fiscal year. The average membership was 48, who attended 95% of the 356 half days of school. Tardinesses have decreased from 148 to 43.

The policy of the School Board has led to a marked improvement in the physical condition of the school rooms. All grades were maintained, educationally, at a level definitely above the national Stanford grade norms. A full policy of pupil accounting permits the Board to establish policies without bias.

Radio and motion picture equipment are becoming standard equipment for centralized schools. The Board can consider the wisdom of making a beginning in these important educational media.

Greenfield per pupil costs still remain very low. The excellent cooperation of parents, teachers and school board is the reason for unusually high standards of education at unusually low cost.
